## ADMINISTRATOR'S REPORT November Update 2003

### Subarea Health Planning Councils (SACs) Activities

- Hawaii** The members are working to provide closure activities for the Hawaii County Transportation proposal, including providing followup to community groups who have been involved. They were also provided an orientation/update to the Certificate of Need review process.
- Honolulu** The HonSac members were given GIS maps that included the location of various health care services for Honolulu County. They will be commenting in future meetings on various rationales that can be used to plan for health services for the community. They were also provided an orientation/update to the Certificate of Need review process.
- Kauai** Members will meet with representatives from Aloha and Hawaiian airlines and the American Cancer Society discuss whether any reasonable accommodation can be made for Kauai patients who must travel to Oahu hospitals for radiation treatments.
- Tri-Isle** The members are discussing dialysis services and the needs of residents with chronic kidney failure. They had a videoconference presentation on kidney disease and dialysis from the National Kidney Foundation of Hawaii to broaden their knowledge of the issues involved with dialysis, options for patients and quality review mechanisms.
- Windward** The members heard from the American Diabetes Association - Hawaii Chapter about their activities and role in serving people with diabetes. The SAC discussed a forum that will connect diabetes providers and resources so that knowledge of and access to the full range of diabetes services currently being offered is available. Darryl Shutter provided an orientation/update to the Certificate of Need review process.
- West Oahu** The members are identifying the areas they would like to develop health education sessions for students and potentially parents. They are considering what school may be good to pilot the project in and will continue to gather health education and school health information.

### Research and Statistics:

The SHPDA website had a total of 22,580 hits for October 2003.

The Certificate of Need Application Summaries and Decisions Files, Monthly SHPDA Update Reports, Web Server Hits Statistics and SHPDA Calendar web pages were updated.

Assisted with the first SHPDA Video Conference linking the Department of Health in Honolulu with the Tri-Isle SAC on Maui.
